A Sex Worker's Guide to Harnessing  
the Energy of the Internet

Dedicated to all the E-thoths, Gnostic Priestesses,  
Spiritual Hoes, and Whores of Babalon  
in my DMs.

HEREIN lies a method of sigil magick that utilizes the time old method of orgasm to charge sigils in an efficient and powerful way.

For years, people have toiled away at their genitals for a moment of bliss, unaware they were wasting potent energy on images behind a glass screen that provided nothing but the reflection of their exhausted faces.

This system is not new. This is not an attempt to reinvent the wheel, but rather, to demonstrate the potential that is always already available to you.

Some might say it is immoral to take this energy and use it for what thou wills. To those, I say fuck em. Its free real estate, or in this case, Chi. They're already gonna cum to what you post, why not take their money AND their life force to manifest something nice in your life? Remember, you do not need to pander to the lesser morals of an already compromised soul.

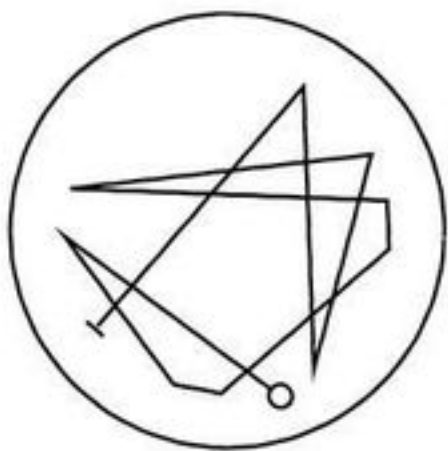

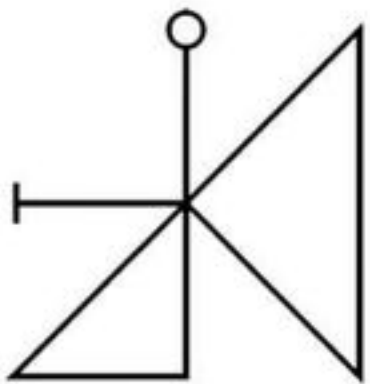

# What is a sigil?

“An inscribed or painted symbol considered to have magical power”

Essentially any type of drawing or painting that has meaning to you that represents something you want manifested in your life or within yourself

## Examples:

Each are created with a certain intention in mind that goes behind the design which allows you to focus your energy and attention on as simple a symbol as possible.

If you want to learn how to create them, there are plenty of youtube videos that will break down various methods and you can choose one that is most relevant to you. For this system, since it will require photo editing to some degree, I recommend you find an app that allows you edit in photos. I use Baazart personally, and allows me to layer photos and sigils and manipulate them in a way that makes this method works as fast as possible. Low effort high reward once you get this down.

# Method of Charging

Orgasming while staring at a sigil is generally considered to be the quickly way to dump energy into a sigil. The reason for this is that at the moment of orgasm, all thoughts seem to cease and consciousness is reduced to a single point. This type of extreme concentration coupled with the amount of energy released thru an orgasm makes it a simple way to effectively pour life into your sigil and let it manifest your will.

# Method of Capture

Whatever you use as a canvas for your sigil, should ideally be as provocative as possible (obviously). You would then take that photo, and edit in your sigil. You probably want it somewhere near someone's attention would be when they cum ie. your tits, face, ass, feet 😏, etc.

## Before

## After

Now that doesn't seem practical, which is where our photo editing app of choice will be our best friend. Adjust and blend using opacity to taste. It doesn't need to be obviously visible, in fact, if you want it to be as hidden as possible. Only you will know its there, and it will still harness whatever energy is cummed on it regardless.

Before

After

With practice and  
a little bit a  
tweaking, this will  
become second  
nature and its an  
easy way to turn  
literal every photo  
of yourself into a  
literal spell.

I hid the same  
sigil 5 times in  
this one. See if  
you can find  
them.

It's generally a good idea to word your manifestation as if it already happened or is happening to you. Just imagine you make a symbol for something you want to happen to you. "I will to get x amount of dollars" might end up making you someone who is always going to be almost getting that money instead of actually having it.
